

Project Demo Planning

Date	27 June 2026
Team ID	XXXXXX
Project Name	OptiCrop: Smart Agricultural Production Optimization Engine
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demonstration plan ensures effective presentation of the OptiCrop project by showcasing its features, machine learning capabilities, and agricultural applications. The demo focuses on explaining the problem statement, system architecture, live feature execution, and project outcomes.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Project Introduction	Introduce the problem statement, objectives, and importance of agricultural optimization	2	Kondari Saidevi (Team Lead)
2	System Architecture	Explain the technical architecture, machine learning models, and workflow	3	Hafsa Safeen Syed
3	Smart Crop Recommendation Demo	Demonstrate crop prediction using soil and environmental parameters	4	Polipati Akshaya
4	Crop Suitability Assessment Demo	Demonstrate environmental compatibility analysis for crops	3	Pavani Ojili
5	Research Analysis & Visualization	Show data analysis, graphs, and crop-environment relationships	2	Hafsa Safeen Syed
6	Conclusion & Future Scope	Present project outcomes, limitations, and future enhancements	1	Entire Team

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain agricultural challenges and project objectives
2	Solution Overview	Describe OptiCrop architecture and machine learning approach
3	Live Feature Demonstration	Demonstrate crop recommendation and suitability assessment
4	Q&A Session	Answer evaluator questions and discuss future improvements
